"We are pleased to present the Q3 financial result of the Company. We

entered the O3 period in October with uncertainty of the covid all around and skepticism in

mind, but with the hope that scenario can only be better. With this belief, our teams in rural and

semi-urban areas have catered admirably to the agriculture sector. We are an agri-inputs Company with our range of products, services and advisory and feel

proud to have contributed to the agri sector which has shown good growth amongst the constituents in last three quarters.

This is well reflected in the better financials of the Company in the

On the standalone Company, we are pleased with the run rate achieved and the ebitda has turned

positive. The debt resolution has progressed well and we are pleased to state that we are close to

implementation in coming weeks. Hereafter, we are confident of increasing the capacity utilization

increasing the product range in the near times to come. The overseas subsidiaries' performance

continues to be stable with steady growth, despite challenging covid

times. Of our various locations, certain geographies like Israel are ahead in vaccination and this is

lending support to the business. In India, we are gradually increasing the dealer network and spreading outreach into newer districts.

While we take all these steps, we are maintaining focus on improving further working capital

efficiencies and controlling costs and thereby improving margins.

We continue to engage intensively with the lenders on the debt resolution and sincerely thank them

for their continued support. We are hoping to perform better in Q4, which is a busy period for our

operations. We are seeking and are thankful to the employees, customers, vendors and advisors for their unwavering support and understanding the times.
